ADJUSTABLE SPRING SEAT INSTRUCTIONS

OLD MAN EMU | ARB

⚠ Install jounce cap after spring seat assembly

58mm Body

Jounce cap

50mm Body
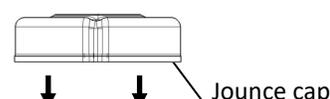

Jounce cap

*Models supplied without dust boot require OE dust boot and Jounce bumper to be re-used

*Use a small amount of grease to aid installation of jounce cap

*Use a soft hammer to install cap

MOUNTING INSTRUCTIONS

List of Torques

Thread	M8	M10	M12	M14
Torque (Nm)	13	25	45	72
Torque (ft lb)	10	19	34	54

⚠ **Do not use an impact tool to loosen or tighten fasteners due to possible damage to the product. Self-locking nuts must only be used once.**

⚠ WARNING

- Refer to Vehicle Manufacturer´s specifications for torque values.
- Refer latest OME Application Guide for fitment and other important notes.
- Do NOT use an impact gun for installation of this product.
- Do not use this product for any vehicle make or model, other than those specified by Old Man Emu / ARB.
- Do not remove labels from suspension components.
- This product or its SMP kit must not be modified in any way.
- The installation of this product may require the use of specialised tools and/or techniques.
- All rubber mounted strut/shock absorber attachments must not be fully tightened until after the suspension system is loaded (wheels on the ground).
- During installation, it is the duty of the installer to check correct operation/clearances & replace any worn component/fastener(s).
- Work safely at all times.
